## CLAIMS

- A method of friction stir welding together at least two metallic workpieces, including the step of applying at or adjacent a heated welding zone a cryogen in the form of at least one jet.
- The method claimed in Claim 1, in which the cryogen is a liquid cryogen.
- 3. The method claimed in Claim 2, in which the liquid cryogen is nitrogen.
- 4. The method claimed in Claim 2, in which the liquid cryogen is argon.
- The method claimed in Claim 1, in which the cryogen is solid carbon dioxide.
- The method claimed in Claim 1, in which the cryogen is a mixture of solid carbon dioxide and a liquid cryogen.
- The method claimed in Claim 1 wherein the workpieces are of aluminium or an aluminium alloy.
